Table 1:Details of commercial goat farms selecte d for study

Madhya Pradesh	Dhar, Badwani and Bhopal
Rajasthan	Jaipur and Nagaur

Data from the selected famous goat farmer were collecting for the year 2005-06 on the following aspects: socio-environment information;

III IMPLEMENTATION

When we have create this website by using wordpress application In that following plugin are used,

1. Google language Translator
2. Google slider
3. Contact form
4. PowerHit Counter
5. Meta Slider

Help this plugin we implement this web application

- A. This web application are very useful because by using this web application we can provide all goat information of people
- B. We can provide all basic information like as different verities of goats like as Boer, Sojat, Sanity etc.
- C. In that we can provide information of goats vaccination and checkup in
- D. When we try to contact our team by using contact form plug-in
- E. We cannot understand Eng language then by using Google Language translator we can read other language.
- F. We find out location by using google map

IV CONCLUSION

1. 50% of goat product like a AFRICAN,BHOR,SOJAT are available.
2. 30% goats are available for a marketing. make goats are profitable
3. Designed simple and attractive web application.
